

# Ear Tone™

## Normal hearing

### Ear Tone™

The Ear Tone™ formulation contains magnesium which contributes to a normal electrolyte balance. Magnesium also contributes to the reduction of tiredness and fatigue. Ginkgo biloba contributes to normal hearing.

### Ginkgo Biloba

Ginkgo biloba is a unique species of tree with no living relatives. It is native to China, where some trees planted outside temples are more than 1,500 years old. Ginkgo is a living fossil recognisably similar to fossils dating back 270 million years. It has various uses in traditional medicine and as food. In this tablet, ginkgo is mixed with pine bark extract and magnesium mineral. The ginkgo biloba leaves used in this tablet are selected, dried and extracted, so that the desired herbal substances are preserved. This guarantees a consistent high quality.

**Ear Tone™ is available in a 30 tablet pack. For more information call 0800 389 1255 or purchase online at [www.newnordic.co.uk](http://www.newnordic.co.uk)**

## RECOMMENDED DAILY DOSES
