

Wonder Legs™

Veins and blood vessels

Wonder Legs™

Wonder Legs™ is the tablet which may help maintain normal vein and blood vessel function to help avoid the feeling of tired legs. The unique bioactive nutrient combination contained in each tablet helps avoid the feeling of tired legs after prolonged standing or sitting. The tablet, which is manufactured in Sweden, contains a herbal combination extract of French maritime pine bark, red vine leaf extract, and black pepper, plus vitamin C.

Pine Bark

The New Nordic tradition is based on a consistent formula of fine quality herbs to produce world famous herbal food supplements. Wonder Legs™ is based on a genuine and authentic formulation. Pine bark has been used in bread in Scandinavia for centuries particularly during the freezing cold winters. The bark in this product is ground and extracted, so that the preferred herbal ingredients are preserved and standardised.

Wonder Legs™ is available in either 30 or 60 tablet packs. For more information call 0800 389 1255 or purchase online at www.newnordic.co.uk
